SKILLS

Languages:	Dart, Python, C++, Java
Flutter & Mobile:	Flutter, REST APIs,Hive, Provider, Riverpod, Bloc,Clean Architecture
Backend, Tools:	Firebase, Flask, Django, Node.js, Git, PostgreSQL, Docker, Postman, Linux
Machine Learning:	Scikit-learn, TensorFlow, NLP, OpenCV, DeepFace, Computer Vision
Soft Skills:	Problem-Solving, Analytical Thinking, Adaptability, Time Management

INTERNSHIP

Grapesgenix Pvt. Ltd ML Intern LINK	Jul 2025 - Aug 2025
- Worked with Google Teachable Machine to train quick prototype models and accelerate early-stage ML experimentation. - Gained hands-on experience in Python and core Machine Learning concepts, including data preprocessing, EDA, and implementing ML algorithms such as SVM and KNN. - Created a full sentiment analysis system using DeepFace + Django, enabling real-time multi-emotion detection. - Performed dataset preprocessing, translation-based labeling, debugging, and model evaluation, improving overall data consistency by 20%.	

PROJECTS

PathFinder Career Recommendation System GITHUB	April 2026-May 2026
- Developed an AI-powered career recommendation platform based on the Holland RIASEC model, achieving 87% recommendation accuracy across 2,000+ assessment records using Machine Learning and NLP. - Implemented resume analysis, ATS scoring, and AI-driven interview preparation modules, reducing manual career evaluation time by 60% through automated skill-gap analysis and personalized insights. - Built a scalable Flutter + Firebase application with secure authentication, REST API integration, and real-time dashboards, supporting 500+ simulated user sessions. - TECH: Flutter, Firebase, Python, Scikit-learn, NLP, REST APIs, Riverpod, PostgreSQL	
HelloCare Healthcare Management System GITHUB	Dec 2025 – Jan 2026
- Developed a Flutter-based healthcare app enabling secure storage and management of medical records using Firebase (Auth, Firestore, Storage). - Implemented QR-based sharing with controlled access and real-time report viewing, improving data accessibility and security. - Integrated AI-powered assistant (Google Gemini) for automated health summaries and personalized insights. - TECH: Flutter, Firebase, Hive, Provider, Google Gemini API	

CERTIFICATES

CipherSchools-Accredited in Cybersecurity Fundamentals LINK	Jul 2025
NPTEL – Certified in Privacy and Security in Social Media, with hands-on LINK	Apr 2025

ACHIEVEMENTS

Gained exposure to diverse ML problem statements by participating in 8 AI/ML hackathons.	
Participated in AMD IIT Delhi Reinforcement Learning Hackathon by Unsloth LINK	Feb 2026
Ranked in the top 10 teams for the GEN-AI Hackathon LINK	Dec 2025
Ranked in the Top 10 teams in Hacknauts AI/ML Hackathon and trained a Minesweeper AI agent using reward-based learning. LINK	Nov 2025
Secured 3rd Prize in Hack Adhyaay Hackathon LINK	Nov 2025
Secured 3rd Prize in “The Encrypted Warfare – Operation BlackOut” CTF competition	May 2024
